The Distance Between Lost and Found Kathryn Holmes 2015-02-17 Blending elements of Laurie R. King's *Speak* and Gary Paulsen's *Hatchet*, this gripping story from Kathryn Holmes was deemed "a page turner" by author Richard Peck and "an intense story of survival" by ALA Booklist in its starred review. Sophomore Hallie Calhoun has just endured the most excruciating six months of her life. Once the rumors about her and the preacher's son, Luke, made their way around school, her friends abandoned her, and as a result, Hallie has completely withdrawn. Now on a hiking trip in the Smoky Mountains with the same people who have relentlessly taunted her, Hallie is pushed to her limit. Then Hallie, outgoing newcomer Rachel, and Jonah—Hallie's former friend—get separated from the rest of the group. As days go by without rescue, their struggle for survival turns deadly. Stranded in the wilderness, the three have no choice but to trust one another in order to stay alive...and for Hallie, that means opening up about what really happened that night with Luke. From the catty atmosphere of high school to the unpredictable terrain of the mountains, this novel is a poignant, raw journey about finding yourself after having been lost for so long.

Millionaire by Thirty Douglas R. Andrew 2008-04-30 Most people know that there are 70 million Baby Boomers in America today...but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

The Fama Portfolio Eugene F. Fama 2017-09-07 Few scholars have been as influential in finance, both as an academic field and an industry, as Eugene Fama. Since writing his groundbreaking 1970 essay on efficient capital markets, Fama has written over 100 papers and books that have been cited hundreds of thousands of times. Yet there is no one collection where one can easily find his best work in all fields. "The Fama Portfolio" will be an outstanding and unprecedented resource in a field that still concentrates mainly on questions stemming from Fama's work: Is the finance industry too large or too small? Why do people continue to pay active managers so much? What accounts for the monstrous amount of trading? Do high-speed traders help or hurt? The ideas, facts, and empirical methods in Fama's work continue to guide these investigations. "The Fama Portfolio" will be a historic and long-lasting collection of some of the finest work ever produced in finance."
