Systemic Crises of Global Climate Change Phoebe Godfrey 2016-04-14 Sociological literature tends to view the social categories of race, class and gender as distinct and has avoided discussing how multiple intersections inform and contribute to experiences of injustice and inequity. This limited focus is clearly inadequate. Systemic Crises of Global Climate Change is an edited volume of 49 international, interdisciplinary contributions addressing global climate change (GCC) by intentionally engaging with the issues of race, gender, and class through an intersectional lens. The volume challenges and inspires readers to foster new theoretical and practical linkages and think beyond the traditional, and oftentimes reductionist, environmental science frame by examining issues within their turbulent political, cultural, and personal landscapes. Varied media and writing styles invite students and educators to reflexively engage different, yet complementary, approaches to GCC analysis and interpretation, mirroring the disparate voices and viewpoints within the field. The second volume, Emergent Possibilities for Sustainability will take a similar approach but will examine the possibilities for solutions, as in the quest for global sustainability. This book is a valuable resource for academics, researchers and both undergraduate and post-graduate students in the areas of Environmental Studies, Climate Change, Gender Studies and International studies as well as those seeking a more intersectional analysis of GCC.

The Spirit of a Fighter Vannead Horn 2016-10-21 THE SPIRIT OF A FIGHTER is a story about a person who was born in one of the poorest countries in the world, Cambodia. In fact, since the very first day of his life, he was not only condemned to be a kid living with a poor family in a poor country, but a kid who was victim of the cold war of the World Powers, the civil war and the genocide perpetrated by his own people, the Khmers Rouges in their famous Killing Fields. In this respect, in 1978 when he was only 20 years old, he was the sole survivor of his loving family of seven. But he, himself escaped from Cambodia and went to France in 1981 with his wife and 6 month-old baby boy. He became citizen of his new adopted Mother Land and started working there, first as a gardener, then as an

engineer, and in 2004 he immigrated to the United States of America. In his new land of freedom and dreams, he continued to work as Engineer while his wife operated a Donut shop as the principal investor. In fact, the book provides details about the personality of a boy who did not want to accept his unlucky destiny by being born in the wrong place at the wrong time. As such, by this book, he wants to show the whole world how such a very poor kid could fight and manage his life from being bullied by his peers in his home country, and how he could survive the Killing Fields of the Khmers Rouges. Certainly by his own discipline, and aided by a sense of freedoms joy, he sought not only to succeed, but to excel by getting a Masters degree in engineering while in France. A degree he used and helped his three children to understand, love and work hard to be awarded the same degree. In such a spirit, I, Vannead HORN, the author of this book who has lived in three different continents, would just like to share my story in which I thoroughly describe how love from my family, despite different and tragic experiences, encouraged me to grow, survive and excel in life and built in me a character that was joyous and successful. This power can be found in any family which is nourished in love.

Abortion in Post-revolutionary Tunisia Irene Maffi 2020-05-01 After the revolution of 2011, the electoral victory of the Islamist party 'Ennahdha' allowed previously silenced religious and conservative ideas about women's right to abortion to be expressed. This also allowed healthcare providers in the public sector to refuse abortion and contraceptive care. This book explores the changes and continuity in the local discourses and practices related to the body, sexuality, reproduction and gender relationships. It also investigates how the bureaucratic apparatus of government healthcare facilities affects the complex moral world of clinicians and patients.

Potty Train Your Child in Just One Day Teri Crane 2006-06-06 Finally...a fun, easy-to-use guide to potty training any child in just ONE DAY Just think, from the time babies are born until they are toilet trained, they use an average of 4,000 diapers! *Potty Train Your Child in Just One Day* is the helpful guide you've been waiting for to get your child out of diapers and turn the potentially terrifying process of toilet training into an effective and enjoyable bonding experience with your child. Teri guides parents to the successful one-day potty training of their child by teaching them how to: • Look for the signs that your child is ready to be potty trained • Make the potty connection by using a potty-training doll • Create incentive through consistent positive reinforcement • Use charts, quizzes, and checklists to help with every step of potty training • Know when it's time to bring in a potty pinch hitter • Complete your potty training -- no more accidents Once Teri teaches you her techniques, she shares her secret -- potty parties! She has carefully designed twelve imaginative themes for parties, such as a seriously silly circus, a cartoon character carnival, or a magic carpet express, and supplies parents with everything they will need. Teri has proven that a potty party day engages a child in potty training in a way that no other method has before -- by speaking a toddler's language. A party may translate to fun, games, cake, candy, presents, and prizes to a child, but with Teri's expertise, parents can use it as a tool to motivate their child to want to go to the bathroom -- and to keep on going. That's why it works in just one day!

The Goddess Guide to Divorce Evelyne Michaut 2019-11-04 Young Evelyne dashes through the sanitarium her grandfather founded, the one where her entire family works and gathers, and where she is used to seeing the faces of the handicapped, the infirm, as they strive to heal. As she explores this curious playground, pondering if perhaps she's invisible, she has no idea that she will one day carry a handicap of her own—one perpetrated on her as a child that, though buried deep within, will cripple her emotionally, physically, and spiritually for decades, affecting each of her relationships. In candid, sometimes heartbreaking, sometimes hilarious prose, the author allows us a front-row seat to three very different marriages and their eventual demises, as she slowly discovers the source of her dysfunctional sex life, chronic pain, and deeply embedded emotional baggage. In the process, she learns to rejoice in her Divine Femininity, and, ultimately, find the capacity to finally, truly, love herself.

Black and White Bible, Black and Blue Wife Ruth A. Tucker 2016-03-01 Ruth Tucker recounts a harrowing story of abuse at the hands of her husband—a well-educated, charming preacher no less—in hope that her story would help other women caught in a cycle of domestic violence and offer a balanced biblical approach to counter such abuse for pastors and counselors. Weaving together her shocking story, stories of other women, and powerful stories of husbands who truly have demonstrated Christ's love to their wives, with reflection on biblical, theological, historical, and contemporary issues surrounding domestic violence, she makes a compelling case for mutuality in marriage and helps women and men become more aware of potential dangers in a doctrine of male headship.

When Husbands and Wives Become Parent and Child - North American Diaper Edition Maggie Joyce 2022-05-10 Maggie Joyce, author of 'The Fulltime, Permanent, Adult Infant' writes of relationships where the adult relationship is partly or significantly replaced by a parent/child one. That 'child' could be an older preschooler or a toddler or even a baby right down to almost newborn. For most adult babies, their regression is limited and more under control, but for some, it is so significant and long-lasting that it creates a permanent change in the relationship paradigm. This book has case studies on other couples that have embraced - willingly or not - varying aspects of the parent/child relationship. She then gives some clues and advice on taking some of the angst out of relationships where one is an adult baby and the other is struggling to handle it.

First Responder Jennifer Murphy 2021-04-06 One woman's incredible story of life on the front lines as an emergency medical worker in New York City. On the streets of New York City, EMTs and paramedics do more than respond to emergencies; they eat and drink together, look out for each other's safety, mercilessly make fun of one another, date one other, and, most crucially, share terrifying experiences and grave injustices suffered under the city's long-broken EMS system. Their loyalty to one another is fierce and absolute. As Jennifer Murphy shows in the gripping and moving First Responder, they are a family. A dysfunctional family, perhaps, but what family isn't? Many in the field of pre-hospital emergency care have endured medical trauma and familial hardship themselves. Some are looking to give back. Some are desperate for family. Some were inspired by 9/11. Still others want to become doctors, nurses, firefighters, cops, and want to cut their teeth on the streets. As rescuers, they never want people to die or get hurt. But if they are going to die or get hurt, first responders want to be there. Despite the vital role they play New York City, EMTs are paid less than trash collectors, and far less than any other first responder makes, even though the burden of medical emergencies fall on the backs of EMTs and medics. Yet for Jennifer and her brothers and sisters, it's a calling more than a job. First responders are constantly exposed to infectious diseases, violence, and death. The coronavirus pandemic did not change that math; the public is just more aware of it. After 9/11, EMT training schools experienced a surge in applications from civilians wanting to become first responders, inspired by rescuers who responded to the terrorist attacks and rushed into the burning towers when everyone else ran out. The same will almost certainly be true post-coronavirus as people are moved by a desire to help in times of crisis in a more direct way. Funny and heartwarming, inspiring and poignant, First Responder follows Jennifer's journey to becoming an EMT and working during and beyond the Covid-19

pandemic. She will bring readers inside an intense world filled with crisis, rescue, grief, uncertainty, and dark humor. First Responder will move readers to a greater understanding and appreciation of those fighting for them—wherever they live—in a world they hardly know or could imagine.

A Mother's Guide To Diapered Teens Shelley Carter 2021-07-31 "When my six year old son came to me and asked if he could wear diapers again I smiled, said no and life went on. When my ten year old son once again asked if he could wear diapers despite the fact he hadn't wet his bed since he was 4, I again said no and moved on, thinking nothing about it. When I found wet diapers in my thirteen-year-old son's bedroom, I realised there was a problem to deal with. My first decision was to panic. My second was to seek a therapist. When that was useless, I decided to seek real information - and I found it. This book is part our journey and part guidebook for other mothers (and fathers) who may be facing a similar situation. I hope it helps."

But this time, there are too many suspects to count, and it doesn't help matters that she hates Dr. Morris every bit as much as any of his would-be murderers do. *DREAM CHILD* Sara thought she had made peace with her dreaming talent, but she's got a surprise coming: her four-year-old daughter has inherited it, too. Unraveling a mystery with lives on the line is difficult enough under the best of circumstances. Coffee with Rosie Rosalie Bent 2020-04-02 ?"Coffee with Rosie: why does my partner want to wear diapers?" is a new style of book designed for the partners of Adult Babies and Diaper Lovers. Written in conversational style, it is written specifically for the non-ABDL partner. If you want to help improve the understanding of ABDL within your relationship, this is the perfect first step. It is short enough and simple enough to not intimidate someone who wants to understand.

The Stories Clothes Tell Tatsuichi Horikiri 2016-04-15 Spanning decades of research, this compelling social history tells the stories of ordinary people in modern Japan. Tatsuichi Horikiri spent a lifetime searching out old items of clothing—ranging from everyday kimono, work clothes, uniforms, and futons to actor's costumes, diapers, hats, aprons, and bags. Simultaneously he collected oral history accounts to shed light on those who used these items. Horikiri reveals not only the difficult and sometimes desperate lives of these people, most from the lower strata in early twentieth-century Japan, he illuminates their hopes, aspirations, and human values. He also explores such topics as textile techniques, the history of fashion, and the ethnography of clothing and related cultural phenomena. Having been wrongly accused and tortured by the Japanese military police in China during World War II, Horikiri takes a deeply empathetic view of all those who struggle—from peasants and coal miners to traveling salesmen and itinerant performers. This personal connection sets his account apart, giving his writing great power and immediacy. Students and scholars of Japanese history, as well those interested in material culture, labor history, and feminist history, will find this book deeply illuminating.

Hard Time & Nursery Rhymes Claudia Trupp 2009-04-14 What kind of woman leaves three young daughters at home every morning to spend her days representing convicted murderers and rapists? That is the question criminal defense attorney Claudia Trupp confronts in this sharp and riveting memoir as she seeks answers—for herself and, mostly, for her daughters. Every working mother faces the challenges of balancing work and home, but the nature of Trupp's work makes her juggling act all the more precarious—and at times hilarious and bizarre. Trupp's domestic anecdotes of life with her kids run parallel to narratives of her most memorable, and often unsettling, criminal cases, each providing a platform to explore broader issues such as faith, perspective, and charm. The navigation of radically different realms—the criminal courts and maximum security prisons where clients serve hard time, and the home front where children demand marshmallows for breakfast—provides thought-provoking and entertaining reading. While the working mother has been a popular subject of fiction and self-help guides, this may be the only book offering a woman's deeply personal and unapologetic account of how embracing a challenging job while simultaneously guiding a family reaps unexpected benefits on both fronts. In a memoir that will resonate powerfully with all women, Trupp candidly conveys to the reader and to her daughters the struggles and rewards of the conflicting roles in her life, the joy she has found in being a mother, and the value of meaningful work. Bye-bye, Diapers Ellen Weiss 1991 Baby Piggie describes what she didn't like about wearing diapers and why she doesn't need them anymore

My Bert Has Alzheimer's Paula de Ronde 2022-01-26 My Bert Has Alzheimer's is an intimate, detailed account of a wife's experience with her husband's dementia. As Paula de Ronde quickly learned, life for two people — patient and caregiver - is thrown into disarray with a diagnosis of Alzheimer's. Ambushed by the disease, it is a journey into the unknown, but one that features an abundance of love, hope, and support. There is no shying away from the horror of the disease, but its awfulness doesn't strip from the experience of the powerful companions that accompany those enduring it — namely, love, laughter, and community. Thrust into the caregiver role for her other half who used to be her equal and best buddy, making all kinds of decisions together, Paula now enters a new world of uncertainty and chaos. There is no roadmap. Instead she learns that the disease is as individual as each person who contracts it. Here is a caregiver's poignant and revealing story of the mental, physical, and emotional stress of caring for the love of her life, her Bert, as he gives over to his neurological disease. The caregiver's life is far from easy. Yet fueled by love, which never wanes, each step of the way is handled with grace and the help of care partners. Alzheimer's steals memories but also gives teaching moments. As the disease progresses Paula learns to be more tolerant, patient, compassionate and accepting of human frailties. Alzheimer's releases an inner strength. She meets each challenge, finds a solution to each issue that arises, then passes on her new-found knowledge to others. She learns the value of having a support group. Alzheimer's cements the old adage that laughter is the best medicine. Together she and her Bert become stronger than the disease. With humour, compassion, wisdom, and deep feeling, she describes this slice of their conjoined lives. More than a record of the impact of a disease this is, at its essence, also a love story.

The Elephant in the Playroom Denise Brodey 2008-02-26 A view from within the whirlwind of parenting a child with special needs Four years ago, Denise Brodey's young son was diagnosed with a combination of special needs. As she struggled to make sense of her new, chaotic world, what she found comforted her most was talking with other parents of kids with special needs, learning how they coped with the emotional, medical, and social challenges they faced. In The Elephant in the Playroom, Brodey introduces us to a community of intrepid moms and dads who eloquently share the extraordinary highs and heartbreaking lows of parenting a child with ADD/ADHD, sensory disorders, childhood depression, autism, and physical and learning disabilities, as well as kids who fall between

diagnoses. Hailing from Florida to Alaska, with kids ages three to thirty-three, the parents in this collection address everything from deciding to medicate a child to how they've learned to take care of themselves, offering readers comfort, kinship, and much-needed perspective.
