This is why you remain in the best website to see the incredible books to have.

Task Force One Dixie Lynn Dwyer 2012-11-01 [Siren LoveXtreme Forever: Erotic Paranormal Menage Romance, M/F/M/M/M/M, werewolves, HEA] Daniella "Dani" Lynch is a homicide investigator in New York City. She's worked hard to achieve her gold shield. She's tough and has a love for guns and proving she's just as good at her job as any man out there. She's on the hunt for a brutal serial killer. This individual leaves so much blood and gore at the crime scenes it's difficult to gather evidence or figure out exactly who could be responsible. One night, she's following a lead and walks right into the killer's path. He's not human. He's some kind of huge, wild wolf. Dani finds out that she is actually a healer and her abilities are very rare. All hell breaks loose as she becomes the prey of not only the killer but also of a set of five sexy wolves and one irresistible vampire. She has some powers and charms that are desirable, and some sexy Alpha males, a charismatic and charmingly handsome vampire, rogue wolves, and evil scientists are all ready to claim Dani as their mate. ** A Siren Erotic Romance

In High Places J Holland 2019-04-18 Ever since the death of his wife, Lina, in a Kabul bombing, Aubrey Savage has been determined to fulfill his promise to her: to find out what happened to her brother, Jarrah, a disavowed MI5 agent who has been missing for two years. An ex-SAS officer, Savage is used to noticing the small things. So when he offers a lift to a terrified runaway bride on the moors, he knows there's more to her story than meets the eye. But when she is snatched away immediately, leaving behind a holdall and a Glock that he recognises to be that of an MI5 agent, he is thrust into a deadly world of corruption, and a threat that's all too close to home...

Task Force Two: Fennigan Pack's Earth Angel [The Men of Five-O #9] (Siren Publishing Lovextreme Forever) Dixie Lynn Dwyer 2014-12-12 [Siren LoveXtreme Forever: Erotic Fantasy/Paranormal Menage Romance, M/F/M/M/M/M, werewolves, spanking, HEA] Salina catches killers as a homicide detective in NYC. When she kills two criminals to help save her partner and they show up alive the next day, she knows that something strange is going on. She finds out that humans aren't the only ones who walk this earth, or who kill, Salina always felt different, but it takes meeting six Alpha men who can shift into wolves to bring out her special abilities. She's not so keen or trusting of the whole mating thing, and by the size of the six men, their intimidating attitudes and Irish brogues, she's going to fight them every step of the way. Fennigan pack has drifted apart after losing their first mate to murder. As they hunt for revenge, they are shocked to find the gods have granted them a second mate. Angus, Adrian, Brady, Delaney, Eagan, and Quinn Fennigan expect respect and submission, something Salina doesn't give freely. Her defiance could cause her death. ** A Siren Erotic Romance

Danish Dynamite Rob Smyth 2014-04-24 The Denmark side of the 1980s was one of the last truly iconic international football teams. Although they did not win a trophy, they claimed something much more important and enduring: glory, and in industrial quantities. They were a bewitching fusion of futuristic attacking football, effortless Scandinavian cool and laid-back living. They played like angels and lived like you and I, and they were everyone's second team in the mid-1980s. The story of Danish Dynamite, as the team became known, is the story of a team of rock stars in a polyester Hummel kit. Heralding from a country with no real football history to speak of and a population of five million, this humble and likeable team was unique. Everyman off the field and superheros on it, they were totally of their time, and their approach to the game was in complete contrast to the gaudy excess and charmless arrogance of today's football stars. That they ultimately imploded in spectacular style, with a shocking 5-1 defeat to Spain in the 1986 World Cup in a game that almost everyone expected them to win, only adds to their legend. For the first time in English, Danish Dynamite tells the story of perhaps the coolest team in football history, a team that had it all and blew it in spectacular style after a live-fast-die-young World Cup campaign. Featuring interviews with the players themselves, including Michael Laudrup, Preben Elkjær and Jesper Olsen, as well as with those who played or managed against them, this is a joyous celebration of one of the most life-affirming teams the world has ever seen.

Strategy and the Sea Nicholas Rodger 2016 This book presents a wide range of new research on many aspects of naval strategy in the early modern and modern periods. Among the themes covered are the problems of naval manpower, the nature of naval leadership and naval officers, intelligence, naval training and education, and strategic thinking and planning. The book is notable for giving extensive consideration to navies other than those of Britain, its empire and the United States. It explores a number of fascinating subjects including how financial difficulties frustrated the attempts by Louis XIV's ministers to build a strong navy; how the absence of centralised power in the Dutch Republic had important consequences for Dutch naval power; how Hitler's relationship with his admirals severely affected German naval strategy during the Second World War; and many more besides. The book is a Festschrift in honour of John B. Hattendorf, for more than thirty years Ernest J. King Professor of Maritime History at the US Naval War College and an influential figure in naval affairs worldwide. N.A.M. Rodger is Senior Research Fellow at All Souls College, Oxford. J. Ross Dancy is Assistant Professor of Military History at Sam Houston State University. Benjamin Darnell is a D.Phil. candidate at New College, Oxford. Evan Wilson is Caird Senior Research Fellow at the National Maritime Museum, Greenwich. Contributors: Tim Benbow, Peter John Brobst, Jaap R. Bruijn, Olivier Chaline, J. Ross Dancy, Benjamin Darnell, James Goldrick, Agustín Guimériz, Paul Kennedy, Keizo Kitagawa, Roger Knight, Andrew D. Lambert, George C. Peden, Carla Rahm Phillips, Werner Rahn, Paul M. Ramsey, Duncan Redford, N.A.M. Rodger, Jakob Seerup, Matthew S. Seligmann, Geoffrey Till, Evan Wilson
Calculated Contagion K.T. Lee 2017-11-24

The Unincorporated Woman Dani Kollin 2011-08-16 There's a civil war in space and the unincorporated woman is enlisted! The epic continues. The award-winning saga of a revolutionary future takes a new turn. Justin Cord, the unincorporated man, is dead, betrayed, and his legacy of rebellion and individual freedom is in danger. General Black is the great hope of the military, but she cannot wage war from behind the President's desk. So there must be a new president, anointed by Black, to hold the desk job, and who better than the only woman resurrected from Justin Cord's past era, the scientist who created his resurrection device, the only born unincorporated woman. The perfect figurehead. Except that she has ideas of her own, and secrets of her own, and the talent to run the government her way. She is a force that no one anticipated, and no one can control. The first novel in this thought-provoking series, The Unincorporated Man, won the 2009 Prometheus Award for best novel. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Armed Forces 1982
Special Forces Camps in Vietnam 1961/70 Gordon L. Rottman 2011-03-15 In 1961 US Special Forces units began entering remote areas of Vietnam dominated by the Viet Cong. Their task was to organize local defense and strike forces aimed at stopping the enemy from gaining further control of such areas. The Green Berets set up fortified camps from which indigenous troops defended local villages and attacked and harassed the enemy. How these camps were constructed, developed, and defended is documented here for the first time. This book also covers the weapons, barriers, and obstacles used in these camps, providing specific examples of camp design, and details how they withstood the test of battle against a determined and resourceful enemy.

Last to Die Kate Brady 2010-09-01 A ruthless killer hides in plain sight, someone no one believes is capable of murder. Within a week, six women will be murdered, all punished for their dark pasts. Detective Dani Cole is determined to track down this serial killer whose victims include a young woman she pulled out of a life of crime. Her investigation leads her to a photography foundation and the renowned photographer Mitch Sheridan, a man she fell in love with years ago but has tried to forget. Dani and Mitch are instantly attracted to each other again, though their troubled pasts keep them from getting too close. Together, through the course of the investigation, they unearth a dark chain of deception that leads to a killer who is closer than they think.

War Monthly 1975
Google War David Alexander 2021-11-10 Bestselling author David Alexander has penned what critics hail as the ultimate thriller/technothriller. GOOGLE WAR is the result of groundbreaking authorship by an author whose last novel is always the next novel of the competition, and whose next novel goes far beyond what others even conceive as possible. "As with all other thrillers by David Alexander, the "techno" aspect in no way overshadows the "thriller" part. Here too, the author has developed characters and situations that take Google War giant steps beyond conventional thriller fare, projecting scenarios that extrapolate the future from present situations with an uncanny sense of the probable ... it's as if David Alexander wrote this thriller as dictated by his crystal ball." -- Daily News Virtually everything in GOOGLE WAR, every element of plot and characterization, every riff and hook of story, is based on actual events, technologies and in some cases, personalities and the threads of its plot have been deliberately interwoven to project a forward-looking scenario at threats and solutions. One of the themes of the novel is the threat to human society posed by artificial intelligence, a so-called Terminator Effect. The threat from AI includes that described from neuromorphic technologies, which can bridge the gap between machine intelligence and the human nervous system. "While many of the scenes bear an eerie resemblance to contemporary events -- a viral pandemic whose causes are murky, the hunt for and killing of a terrorist chieftain guilty of genocidal crimes, the waging of distant littoral operations in remote regions of the world, the battles in Congress, the Pentagon and White House to cope with growing insurgency -- the story is so exciting precisely because it mirrors rather than apes headlines or regurgitates current events. Nor is this a "Jack Armstrong" or even "Jack Ryan" saga, relying on superficial and often laughably naive knowledge of military, political, geostrategic, technological and cultural trends that are at the very core of the exciting and well informed story that features in Google War." --Times of London GOOGLE WAR is continued proof of Author David Alexander's uncanny ability to create riveting fiction that reads like a headline New York Times story. "It's as if Alexander has a crystal ball and uses it to sneak a peak at world-changing events before they happen, then write it as fiction." The New York Times called GOOGLE WAR by David Alexander "...perhaps the best thriller of its type to have come along all year!" USA Today applauded author David Alexander, declaring that "Among the possible three finest thriller authors today, Alexander easily takes first place." In GOOGLE WAR, terrorism, cyberwar, biowar and robotic war combine into the rolling thunder of advanced hybrid war. This is a fifth generation form of warfare that attacks through 5G systems of the global Internet and makes all other types of warfare obsolete. When this storm gets rolling everyone is a combatant and everything can potentially become an enemy weapon. Even the human brain is not immune to the invasion of weaponized nanoparticles that can take control of the human nervous system and turn victims into humanoid robots programmed to kill. "Where exactly David Alexander gets his ideas from, we can't say. What we can say is that this author is light years ahead of just about any other thriller author in the world and promises to continue on a rocketing trajectory into the farthest reaches of novelistic fame. Most amazingly, Alexander appears not to owe literary dues to anyone who has come before; he is a creative law unto himself, inventing everything as if he had a magician's ability to pull entire worlds out of an upturned top hat then make it all magically disappear in a puff of smoke. At thriller writing, David Alexander is a wizard. As an author with scores of great novels to his credit, he is also a one-man industrial giant." --Kirkus Reviews "Always the consummate prose stylist, David Alexander also speaks tech talk like no other. What's more, the tech specs are undoubtedly real, including those that pertain to ostensibly stolen or covertly obtained Russian and Chinese weapons that have been reverse-engineered by [US military technology development agency] DARPA. Alexander's security clearance is probably higher than the president's, and his knowledge of military systems better than any three members of the joint chiefs of staff," said New York Newsday of David Alexander's blockbuster thriller, G.W.A.R. In page after page of this startling, revolutionary technothriller, Alexander makes bold proclamations that while portrayed as fiction, may be more than that. GOOGLE WAR, by author David Alexander. Find out what it really means to be unable to stop reading a novel. Find out what it really means to read a thriller by an accomplished author. Read GOOGLE WAR. Today.

Dictionary of American Naval Fighting Ships 1968
ARMAGEDDON'S SONG 2 'ADVANCE TO CONTACT' Andy Farman 2015-02-08 Volume 2 of a 4 part series that goes further than even Tom Clancy's classic, in a tale of truly global, world war. Washington DC, Taipei, NATO's North Cape naval picket, and two carrier combat groups have been destroyed by nuclear weapons. NATO is on the back foot and her potential allies are thinning out, as China shows no hesitation in levelling entire cities. Major Bedonovich and Svetlana Vorsoff are our spies with a conscience and now they are in from the cold, but someone will go to any lengths to exact revenge. Perhaps baiting the Bear in his lair is their only hope of survival? The NATO army in Europe, with the battered but defiant Coldstream Guards and US 82nd are holding the line. Vital supplies are enroute from America but the determination of those in the convoys and escorts is matched by those charged with sinking them. NATO needs to level the playing field, and then tilt it in their favour.

The Calculated Series: Books 1-5 K.T. Lee 2020-11-20 The Calculated Series is now available in one convenient collection! Strong heroines in STEM, formidable adversaries, and a dash of romance in every book. The Calculated Series: Books 1-5 includes the following books: Calculated Deception (Book 1) Calculated Contagion (Book 2) Calculated Sabotage (Book 3) Calculated Reaction (Book 4) Calculated Entrapment (Book 5) Calculated Deception (Book 1) Dr. Ree Ryland is an engineering professor who loves her job and plays by the rules. Her life is reassuringly predictable until an enemy hiding in plain sight decides her squeaky-clean reputation is the perfect cover to commit a crime. When Agent Parker Landon and his FBI team discover that someone at the university has been procuring military-grade hardware by disguising it as test equipment, all evidence points to Ree. After the FBI intercepts a shipment that puts Ree in the clear, Parker is forced to tell her that she's being used as a pawn by an unseen enemy. And now she's in that enemy's crosshairs. Ree turns down the protective detail offered by the FBI and insists on using her insider knowledge to help with the investigation. Parker is leery of bringing a civilian on to the team, but he's surprised at how much fun he has working with Ree, even as he tries to keep her out of harm's way. Parker, Ree, and the FBI team find increasingly worrying evidence that someone is quietly acquiring everything they need to cause destruction on a massive scale. Now, they must uncover the motive and identity of the killer hiding among Ree's friends and colleagues before it's too late. Calculated Contagion (Book 2) Dani Christensen is a vaccine researcher who has spent her career proving she is more than just the daughter of the company's CEO. However, as her accomplishments in contagious disease research grow, the wrong people begin to notice. When Dani is isolated from her colleagues at a well-regarded conference in Europe, she is kidnapped and taken to an isolated camp in the Carpathian Mountains. CIA officers Cam Mitchell and Tyler Scott are sent to observe a suspicious group of armed men in rural Romania. When Cam sees Dani being brought into the camp against her will, he and his partner rescue her and bring her safely back to the United States. The CIA initially believes Dani was kidnapped for ransom, but they soon realize her kidnapper has followed her back to her lab. Now, the CIA must work with their allies in the FBI to catch Dani's kidnapper before he releases a potentially deadly contagion for his own political gain. Calculated Sabotage (Book 3) CIA operations officer Quinn King will do whatever it takes to find the person who killed her partner. She follows the evidence to Innovative Rocket Technologies, a start-up company and current darling of the rocket world. Their most recent launch, however, ended in an explosion that Quinn believes is connected to her partner's death. The CIA sends Cam Mitchell to provide backup for Quinn and to make sure she isn't too emotionally invested. With Cam watching her back, Quinn embeds herself at IRT. She soon discovers there is more to the failed launch than IRT has shared with the public. And someone has a vested interest in keeping that information under wraps. When the CIA finds new evidence that someone is actively sabotaging the next launch, they call in Parker, Ree, and Mike from the FBI to help manage a growing number of loose ends. However, once Cam and Quinn realize why the rocket is being sabotaged, it puts them right in the crosshairs of a killer. Calculated Reaction (Book 4) Special Agent Alexis Thompson is eager to get back to work after getting shot on her last FBI assignment. When she discovers that the man who ordered the hit has sent one of his spies to an energy research facility, Alexis convinces the CIA to send her to take him down. This time, Alexis is bringing along her new partner, Waffle, a highly-trained explosives detection dog. Matt Brown is a former Navy SEAL who is now working as an engineering professor. He also helps his friend, CIA Operations Officer Cam Mitchell, whenever his skills are needed. When Alexis goes undercover, Cam sends Matt along to try to keep Alexis from coming home in a body bag. Matt and Alexis soon discover that their enemy's plans go far beyond good old-fashioned espionage. With the clock ticking, Alexis and Matt must figure out how to stop a dangerous explosion before they become collateral damage. Calculated Entrapment (Book 5) Stefanie Ryland is a marine biologist whose life is going exactly to plan. She's worked her way up the corporate ladder to land her dream job at the Oceanic Exploration Group and has a fulfilling personal life. Not to mention, her older sister, Ree, is soon going to make her the world's greatest aunt. However, a surprise phone call from Ree forces Stefanie to reevaluate everything she thought she knew. Not only has her sister been secretly moonlighting for the FBI and CIA, but Ree has also helped thwart several dangerous attacks. And her team believes that Dmitri, the man behind the attacks, has made the

OEG his next target. For CIA Operations Officer Joey Pacelli, putting Dmitri out of play isn't just his job, it's unfinished business. When the CIA and the FBI ask Stefanie Ryland to help them take Dmitri down, Joey travels to San Francisco to protect her. Teaming up with Stefanie is the perfect chance for Joey to beat his old nemesis at his own game. There's just one problem: Dmitri is playing by an entirely new set of rules.

Inside Israel's Northern Command Dani Asher 2016-02-15 On October 6, 1973, Israel's Northern Command was surprised by the thunder of cannon fire and the sight of dense, black smoke. A Syrian force of 1,400 tanks supported by artillery and air power had attacked from the north while the Egyptian military invaded the Sinai Peninsula in the south. Syria sought to avenge its devastating loss of the Golan Heights in the 1967 Six-Day War -- a conflict that not only resulted in territorial gain for Israel but also cemented the nation's reputation as the region's preeminent military power. Although Israel ultimately prevailed, the Yom Kippur War (or Ramadan War, as it is known in Arab countries) shattered the illusion of Israel's invincibility. In *Syrians at the Border*, Israel's foremost scholar of the war, Dani Asher, and an eminent group of experts provide the definitive history of this key conflict. The contributors -- Major General Yitzhak Hafi, the Northern commander in chief; Major General Uri Simchoni, head of Command Operations; Brigadier General Avraham Bar David, head of Artillery; and Colonel Hagai Mann, the command's intelligence officer -- all held key positions during the fighting. Together, they offer fresh insight into the prewar debate that raged between the Israeli Northern Command and intelligence officers who believed that Syria would not instigate conflict. This seminal study also examines the pivotal battles that changed the course of the war, as well as the disastrous effects of a flawed postwar evaluation that adversely affected the careers of several high-ranking intelligence officials and the course of defense strategic planning thereafter. The contributors' incisive analyses contribute significantly to our understanding of this troubled region.

Battle Mind. How to Navigate in Chaos and Perform under Pressure Carsten Folke Møller 2015-09-11 Michael Pram Rasmussen, Chairman of the Board in A.P. Møller Mærsk: "From the boardroom to the bridge of a tanker, every leader must master the art of dealing with crises and emergencies. With great skill, Merete Wedell-Wedellsborg shows us that there is a method behind the art" Nils Wang, Rear Admiral, Commandant at The Royal Danish Defence College: "Any leader who expects to come under fire will eventually feel an urgent need to understand Battle Mind. Reach out for this thoughtful and instructive book well in advance of those critical moments". Søren Kyhl, Executive Vice President, Danske Bank: "A stimulating tour through the mind on high alert. Full of useful insights on sustainable high-performance and how you can learn to bounce back from major setbacks." Jesper Kløve, Senior Vice President at Novo Nordisk A/S: "Wedell-Wedellsborg has spent a lot of time studying and focusing on performance under pressure, and it shows. This is a truly well-researched book. Battle Mind is highly informative and provides a hands-on framework and specific ideas for achieving great results. There are great cases in this book for every leader". Anne-Marie Soderberg, Professor, Copenhagen Business School: "With a solid grounding in psychology and leadership studies Merete Wedell-Wedellsborg does an exemplary job when framing the stories told with lucid concepts for dealing constructively with common management derailers". Christian Ørsted, bestselling author of *Lethal Leadership*: "If you are seeking answers to one of the core mental demands of modern leadership, you need this book. It features a fascinating mix of psychology, research and case studies from the military, business and politics. A terrific read". Helena Boas, Founder and President, Bodas: "Merete Wedell-Wedellsborg's fascinating account examines a critical aspect of the minds of leaders, managers, and founders of businesses worldwide. However, the mental reflexes she examines and the tools she suggests/prescribes are also more broadly applicable and invaluable for everyone across all aspects of their lives". Maria Hjorth, CEO, Mercer Denmark: "To succeed in business you have to perform under pressure and it demands more than just talent. You need to perform when it counts. I believe that 'Battle Mind' is a core life skill for everyone and I can highly recommend Merete's book."

The Egyptian Strategy for the Yom Kippur War Dani Asher 2009-09-12 This volume examines the military strategy and issues that Egyptian war planners faced during the 1973 Yom Kippur War. Of major interest is the relationship between the political and military leaders and how that affected the buildup and course of the conflict. Taking this as a starting place, the author concentrates on how Soviet military doctrinal changes presented themselves between the conclusion of the Six-Day War and the Yom Kippur War.

Special Forces in the War on Terror Leigh Neville 2015-05-20 Within weeks of 9/11, United States Special Operations Forces were dropping into Afghanistan to lead the war against Al Qaeda and the Taliban. For over a decade special forces have been fighting a hidden war in Iraq, Pakistan, Syria, Somalia, Mali and Afghanistan, facing off against a range of insurgents from organisations like al Qaeda, al Shabaab, Boko Haram and the Taliban. Leigh Neville draws on recently declassified material and first-hand accounts from his SOF contacts to lift the veil of secrecy from these operations, giving an unprecedented blow-by-blow description of major Special Forces missions, culminating in SEAL Team 6's Operation Neptune Spear and the killing of Osama bin Laden. Detailing the special equipment, tactics, machinery and training that these Special Operatives received and used this impressive volume shows how the world's elite soldiers fought against overwhelming odds around the world.

Fugitives Sinister Saints Press 2015-11-29 The main character is a fugitive... but from what? The authorities? The Mob? Bounty hunters? Supernatural predators? A dystopian police force? Why is the main character on the run? What is their day to day life on the run like? Are the forces chasing them closing in? And if so, how do they react, and what are the consequences of their actions?

Daughters of the People Omnibus One Lucy Varna 2015-09-28 An ancient curse, a lost prophecy, and the deadliest enemy a Daughter can face: Her own heart. In this three-book collection, three immortal descendants of the Seven Sisters battle to save their people from a curse laid down upon them nearly ten thousand years ago. Book 1: The Prophecy Maya Bellegarde journeys to Sweden on behalf of the People. There, she meets James Terhune, an attractive language expert. Together, they must uncover the secrets of the grave and protect them from an ancient enemy, and Maya must decide whether or not to trust James with her deepest secret. Book 2: Light's Bane When Daniella Nehring teams up with Dave Winstead to track down and recover stolen artifacts, her task is complicated by the attraction sparking between her and the stalwart undercover FBI agent, and by her own sinister heritage. Book 3: The Enemy Within Indigo Dupree and Bobby Upton are drawn into a deadly game involving the Prophecy of Light, forcing Indigo to choose between her duty and her heart. Three women, three challenges, three loves, at a time when the People stand at the crossroads between two paths, one leading to their salvation, the other to their utter destruction.

Congressional Record United States. Congress 1921 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873).

Long Way Down Jason Reynolds 2017-10-24 An intense snapshot of the chain reaction caused by pulling a trigger. [Booklist \(starred review\)](#) [Astonishing](#) [Kirkus Reviews \(starred review\)](#) [A tour de force](#) [Publishers Weekly \(starred review\)](#) A Newbery Honor Book A Coretta Scott King Honor Book A Printz Honor Book A Time Best YA Book of All Time (2021) A Los Angeles Times Book Prize Winner for Young Adult Literature Longlisted for the National Book Award for Young People's Literature Winner of the Walter Dean Myers Award An Edgar Award Winner for Best Young Adult Fiction Parents' Choice Gold Award Winner An Entertainment Weekly Best YA Book of 2017 A *Vulture* Best YA Book of 2017 A *Buzzfeed* Best YA Book of 2017 An ode to Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds's electrifying novel that takes place in sixty potent seconds: the time it takes a kid to decide whether or not he's going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE OR, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Willis now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Bucks in the elevator? Just as Willis trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Bucks's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never have an END! If Will gets off that elevator. Told in short, fierce staccato narrative verse, *Long Way Down* is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

Federal Register 1997-12-05

Flotilla 13 Ze'ev Almog 2013-07-10 Flotilla 13 is the elite naval commando unit of the Israeli Defense Forces that specializes in maritime-related combat and counter-terrorist missions. To maintain secrecy, few of its missions have, until now, been made public. With this book, the unit's commander, Rear Adm. Ze'ev Almog, unveils the amazing story of Flotilla 13. For the first time he offers details of many of the unit's operations during the War of Attrition and the Yom Kippur War (1968-1973), including the raids on the Adabiya coastal post and the Green Island fortress that resulted in heavy casualties to the enemy and a strategic change in Israel's combat arena. He candidly discusses his unit's despair following failed operations prior to this period and describes how Flotilla 13 was transformed into a unit of high morale and performance. First published in Hebrew in 2007, this revealing account of what went on is now available in English.

Harlequin Intrigue May 2017 - Box Set 2 of 2 Joanna Wayne 2017-05-01 Harlequin® Intrigue brings you three new titles at a great value, available now! Rescue in Denmark Harold Flender 2019-08-09 German troops entered [Denmark, a] country of four and a half million persons on April 9, 1940, and three years passed before the purge against Danish Jews was begun. On the night of October 1, 1943, the Nazi boot kicked open doors in rooms largely empty. Only a fraction of the Danish Jews 472 were caught and sent to Theresienstadt Concentration Camp (where 53 of them died). The remaining 7,500 escaped thanks to one German and several thousands of their countrymen. How? That was the question that puzzled the American journalist and television-writer, Harold Flender... He returned to Denmark for intensive research among rescuers and rescued and in archives. This book is the result... Flender brings out the risks and agonies, the drama and the heroism, in straight, professional reporting... [a] well-done work... Poul Lassen, The New York Times (One of the most exciting books about the frustration of the Nazis that has come out in a long time... a fabulous story... Wilmington News (A marvelous story... Chicago Tribune (As thrilling as it is uplifting... The Christian Science Monitor (Heartwarming story told in thrilling detail... should be read by everyone... Cleveland Plain Dealer (Inspiring and little-known story... Columbus Dispatch (Remarkable account of human courage and decency... The Denver Post (Powerful, heart-warming... one of the best and most stirring stories out of the Nazi terror... Grand Junction Daily Sentinel (A graphic story of the Golan's greatest rescues... Hartford Times (Suspenseful... lifts the spirit... a rewarding book... Honolulu Star Bulletin & Advertiser (Simple, dramatic and moving... One of the most exciting and heartening [stories] to come out of the war... The London Observer (Impossible to stop reading... Everybody should read it... The London Spectator (An inspiring story of courage and good will... Library Journal (Remarkable... Effectively and comprehensively told... Los Angeles Times (A book that exceeds in fascination, as well as strangeness and truth, any current work of fiction... National Jewish Post & Opinion (Is stranger than fiction... Norfolk Virginian Pilot (Definitely should be read... Philadelphia Bulletin (Very moving and exciting... Publishers' Weekly (Remarkable... well written account... Roanoke Times (Exciting and well documented... Sacramento Bee (Moving... true story of adventure and devotion... St. Petersburg Times (Easy to read and as exciting as any work of fiction... Yorkshire Evening Press (UK)

The naval history of Great Britain, from 1793, to 1820, with an account of the origin and increase of the British navy. Chamier William James 1859

Proceedings of the United States Naval Institute United States Naval Institute 2013

Brothers of Were, Goddess of Love [The Men of Five-O #6] (Siren Publishing Menage Everlasting) Dixie Lynn Dwyer 2014-06-19 (Siren Menage Everlasting: Erotic Fantasy/Paranormal Menage a Quatre Romance, M/F/M/M, werewolves, spanking, HEA) Orion and Palidor Venificus, members of the Brothers of Were, are on the hunt for rogue wolves killing their people. Searching for their lost brother, Draco, they come across Ariella Crimson in danger of being attacked. They remember her as a child, keeping watch as their parents visited. The Venificus, McFay, Crimson, and Sinclair packs are well connected. Ariella's all grown up, and their wolves are very interested. Being a Fae and Were, and having some plans of her own, Ariella uses magic to keep her intended mates at bay. She's twenty-two, and not exactly ready to settle down. But once she becomes the hunted, and her special abilities tune her into what is about to happen, she allows her mates to claim her. She puts her own life in danger in order to locate Draco and will need all the power of their love and connection to save their pack territory from annihilation. This is only the beginning, and Ariella's discovery is sure to change Were history for all of time. ** A Siren Erotic Romance

Air Corps News Letter 1953

The Naval History of Great Britain, from the Declaration of War by France in 1793, to the Accession of George IV. William James 1859

Hitler's Savage Canary David Lampe 2011-04-01 After Adolph Hitler made plans to create a 'model protectorate' out of Denmark, Winston Churchill predicted the nation would become the Fuhrer's tame canary. Isolated from the Allies and fueled only by a sense of human decency and national pride, the Danes created an extraordinary resistance movement that proved a relentless thorn in the Nazis' side. German troops were stymied again and again by the sabotage of railways and airbases and some 7,000 Jews were carried to safety in Sweden. They were not soldiers; they were simply ordinary citizens who refused to stand idly by and witness an atrocity. The story of their selfless courage and daring should inspire countless future generations.

The First Schleswig-Holstein War 1848-50 Nick Svendsen 2010-07-19 1848 was a turbulent but momentous time in Europe. Within this context, the Duchies of Schleswig and Holstein were caught between the rising nationalism and desire for unification of the Prussian/German nation states and the traditional alliances with the Danish Kingdom. The Schleswig Holsteiners decided that allegiance with the German Federation, including possessing their own constitution, was the best way forward. They rebelled against the Danish and looked to the Prussians with their greater military prowess for help. In Denmark, as in other European countries, the call for a democratic constitution caused social disturbance, triggered initially by the February riots in Paris. The Danish monarchy, in crisis, both constitutionally and in terms of monarchical succession continued to lay claim on their southernmost duchies and sent their armed forces to destroy the Schleswig-Holstein insurgents. The author describes the battles and battlefields upon which this crisis was played out: from the first major action at Bov (9 April, 1848) to the last major battles of the war, at Isted (25 July 1850) and Missunde (12 September 1850), from the geomorphic landscape influencing battlefield strategy down to the description of a farmhouse where Prussian officers jumped out of windows to save themselves from the Danish.

Battle at Sea R.G. Grant 2011-01-03 Battle at Sea looks at every aspect of the story of warfare on, above, and under the sea, including classic naval engagements daring raids carried out on ships in harbor, and landing operations such as D-Day, where control of the sea was essential to transport land forces to new battlefronts. Special features within the book include: graphic and dramatic battle catalogs relating the stories of the men, ships, and organizations behind history's greatest naval conflicts; spectacular 3D digital artworks following the crucial stages of key battles, step by step; profiles of naval crew including the captain, officers, gunners, quartermaster, surgeon, cooks, and boatswains exploring their changing roles throughout history; eyewitness accounts recreating the experience of the opposing forces in key battles, whether preparing for conflict, in the heat of battle, or dealing with the aftermath of an engagement; photographic tours revealing the intricate details of surviving or reconstructed warships from an Ancient Greek trireme to a nuclear-powered submarine; features on weapons and technology highlighting developments in naval warfare, from boarding equipment to sonar, cannons to missiles, and propulsion through steam to nuclear power. Battle at Sea is organized into five chapters that are arranged in chronological order. Ancient Wars covers the Egyptians, the Greeks, the Romans, and the great naval battles between warring Chinese dynasties; Medieval Battles charts the era from the fall of Rome to 1500CE; Gun, Sail, and Empire chronicles the European powers setting out on voyages of exploration and colonization; Iron Wars ends with World War I; Technology and Terrorism outlines how naval forces played a crucial role in the balance of terror during the Cold War and still have vital part to play in the uncertainties of the modern world.

The Black Box Michael Connelly 2012-11-26 In this "superb" thriller, Detective Harry Bosch links the bullet from a recent crime to the unsolved killing of a young female photographer during the 1992 L.A. riots (Wall Street Journal). In a case that spans 20 years, Harry Bosch links the bullet from a recent crime to a file from 1992, the killing of a young female photographer during the L.A. riots. Harry originally investigated the murder, but it was then handed off to the Riot Crimes Task Force and never solved. Now Bosch's ballistics match indicates that her death was not random violence, but something more personal, and connected to a deeper intrigue. Like an investigator combing through the wreckage after a plane crash, Bosch searches for the "black box," the one piece of evidence that will pull the case together. Riveting and relentlessly paced, The Black Box leads Harry Bosch, "one of the greats of crime fiction" (New York Daily News), into one of his most fraught and perilous cases.

Seaforth World Naval Review 2014 Conrad Waters 2013-11-07 Since its launch in 2009 this annual has rapidly established a reputation as an authoritative but affordable summary of all that has happened in the naval world in the previous twelve months. It combines the standing features of regional surveys with one-off major articles on noteworthy new ships and other important developments. Besides the latest warship projects, it also looks at wider issues of importance to navies, such as aviation and electronics, and calls on expertise from around the globe to give a balanced picture of what is going on and to interpret its significance. Special features for this year include a survey of current and future torpedo developments, an in-depth study of the Royal New Zealand Navy, a look at how the Royal Navy is coping after the Strategic Defense and Security Review, plus analyses of significant new warship classes: the Japanese Hyuga class DHH concept, the USNS Spearhead Joint High-Speed Vessels, Danish Iver Huitfeldt class frigates, and German AIP technology as demonstrated in the recent Type 212A submarines. For anyone with an interest in contemporary naval affairs, whether an enthusiast or a defence professional, this annual has become required reading.

Military Mission Formations and Hybrid Wars Thomas Vladimir Brønd 2020-10-26 This volume explores and develops new social-scientific tools for the analysis and understanding of contemporary military missions in theatre. Despite the advent of new types of armed conflict, the social-scientific study of militaries in action continues to focus on tools developed in the hey-day of conventional wars. These tools focus on such classic issues as cohesion and leadership, communication and unit dynamics, or discipline and motivation. While these issues continue to be important, most studies focus on organic units (up to and including brigades). By contrast, this volume suggests the utility of concepts related to mission formations – as opposed to "units" or "components" – to better capture the (ongoing) processual nature of the amalgamations and combinations that military involvement in conflicts necessitates. The study of these formations by the social sciences – sociology, social psychology, anthropology, political science and organization science – requires the introduction of new analytical tools to the study of militaries in theatre. As such, this volume utilizes new approaches to social life, organizational dynamics and to armed violence to understand the place of the armed forces in contemporary conflicts and the new tasks they are assigned. This book will be of much interest to students of military studies, sociology, security studies and International Relations in general.
